Commercial Strategy

Company Profile

With a history dating back over 50 years, MSS Group leads the way in providing high quality components and assemblies for the global power industry.

In conjunction with our four state-of-the-art manufacturing facilities in India and an extensive global distribution infrastructure in the UK, US, Europe and Asia, we can provide a comprehensive service to our customers. Allowing them to consolidate their supply chain, reduce their inventory and overheads and assist with business cash flows.

MSS Group continuously strives to add value through our dedicated R&D facilities, production innovation and a robust quality control department.

Quality Assurance

At the MSS Group our subsidiaries are ISO 9001, ISO 14001 and ISO 45001 approved organisations and implement 6Sigma throughout all of their internal operations. We are also a IAF 16949 certified company, demonstrating our commitment to quality products, services and best practice. We are regularly recognised and awarded by our global partners.

Partnership and Collaboration Working with our customers

We specialise in supplying customers with products made precisely to their specification. Our experienced team ensures our partners are supported in enhancing the performance of their processes, products and services.

Together, we strive to overcome even the most demanding challenges in order to succeed.

CSR and Sustainability

CSR, thinking about our employees, stakeholders and the wider environment

Environment

- Committed to creating a sustainable future
- Adopting cleaner production methods, promoting efficient use of energy and environmentally friendly technologies
- Offsetting Carbon footprint through large scale tree planting and other Co2 offsetting activities
- 25% of our groups current power consumption derives from solar panels, with a planned increase to over 30% by 2021
- 90% of our lead and 100% of our brass supply comes from recycled material. Any wooden material from packing is recycled to make boxes for DCB project shipments

People

- The MSS group employs over 600 people globally
- Health and Safety Week with competitions and lectures
- Learning and development programmes adapted to suit the needs and interest of our employees
- Celebration on Environment Day 2019

Community

- Funded special projects for the local Salvation Army
- Blood Donation Camp
- Donations to Local Schools
- Donations to Prime Minister Relief Fund
- Donations to Tata Memorial Centre
- Donations to Rural Education
- Promotion of Education & Eradicating hunger
- For financial year FY19 the group has donated \$100,000 for CSR activities

Complete and Partial Assemblies

Partial Assemblies

Our specialised manufacturing teams can assemble high quality components for application within larger finished products.

Contact

Contact

Mechanisms

Complete Assemblies

Detailed and time consuming complete electrical components can also be assembled in house ready for final applicational use.

DC Switches

DC Switches

Tulip Contacts

Supply Chain Solutions

Our integrated sourcing and manufacturing operations can provide a complete service to potential partners to assist with the reduction of internal operational overheads, improving working capital and developing positive cash flows.

Reasons to partner with MSS Components:

**State of the Art
Manufacturing**

**Support from our
talented pool of
Engineers**

**Access our
Industry Knowledge**

**Improved Stock
Management**

**Maximise
Efficiency**

**Reactive to
Demand - Scalability**

Innovation

**Allowing you to
focus on your core
competencies**

'We appreciate your noteworthy contribution to our business. Your sense of ownership, competence and customer-centricity has enabled us to meet our business requirements. We thank you for your whole-hearted support and excellent collaboration. We look forward to an enduring and mutually beneficial association in the future.'

**Customer Feedback from
Siemens Energy**

State of the Art Manufacturing Facilities

Over \$4m
invested in
machinery
in 2019

Investing in Machinery

The MSS Group's Quality Assurance Systems main aim is to ensure customer satisfaction at all stages. With over \$4m invested in machinery in 2019, our customers can be assured of the highest quality production processes in the market.

- **Spectrometer for chemical analysis of raw material**
- **Two XRF double layer plating thickness testers**
- **Conductivity/Resistance meter – Fischer scope**
- **Micro hardness testing machine**
- **Roughness measuring machines**
- **Tensile testing machine**
- **Vision scope for reverse engineering & development**
- **Micro Ohm Resistance Meter**
- **Milivolt Drop Tester: Bolted Cable Connectors**
- **Milivolt Drop Tester: Cast Pillar**
