Commercial Strategy

Company Profile

With a history dating back over 50 years, MSS Group leads the way in providing high quality components and assemblies for the global power industry.

In conjunction with our four state-of-the-art manufacturing facilities in India and an extensive global distribution infrastructure in the UK, US, Europe and Asia, we can provide a comprehensive service to our customers. Allowing them to consolidate their supply chain, reduce their inventory and overheads and assist with business cash flows.

MSS Group continuously strives to add value through our dedicated R&D facilities, production innovation and a robust quality control department.

Partnership and Collaboration Working with our customers

We specialise in supplying customers with products made precisely to their specification. Our experienced team ensures our partners are supported in enhancing the performance of their processes, products and services.

Together, we strive to overcome even the most demanding challenges in order to succeed.

Quality Assurance

At the MSS Group our subsidiaries are ISO 9001, ISO 14001 and ISO 45001 approved organisations and implement 6Sigma throughout all of their internal operations. We are also a IAF 16949 certified company, demonstrating our commitment to quality products, services and best practice. We are regularly recognised and awarded by our global partners.

CSR and Sustainability

CSR, thinking about our employees, stakeholders and the wider environment

Environment

- Committed to creating a sustainable future
- Adopting cleaner production methods, promoting efficient use of energy and environmentally friendly technologies
- Offsetting Carbon footprint through large scale tree planting and other Co2 offsetting activities
- 25% of our groups current power consumption derives from solar panels, with a planned increase to over 30% by 2021
- 90% of our lead and 100% of our brass supply comes from recycled material. Any wooden material from packing is recycled to make boxes for DCB project shipments

People

- The MSS group employs over 600 people globally
- Health and Safety Week with competitions and lectures
- Learning and development programmes adapted to suit the needs and interest of our employees
- Celebration on Environment Day 2019

Community

- Funded special projects for the local Salvation Army
- Blood Donation Camp
- Donations to Local Schools
- Donations to Prime Minister Relief Fund
- Donations to Tata Memorial Centre
- Donations to Rural Education
- Promotion of Education & Eradicating hunger
- For financial year FY19 the group has donated \$100,000 for CSR activities

Product Offering Overview

Our sophisticated machinery allows us to produce extremely accurate and complex components in ETP copper, copper alloys, aluminium or brass. We offer plated, brazed, sleeved or bare fabricated, and a variety of surface treatments including silver, tin, lead and nickel.

Pressed Parts

Machine Parts

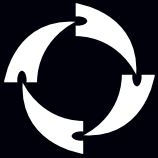

Forgings

Busbars

3D Bending

Product Offering Power Components

Laminated Flexibles

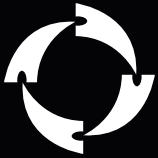

Copper Braids

Quality Value Engineering

We offer bespoke Quality Value Engineering solutions to all of our global partners, ensuring that they receive the maximum added value to their products.

Value added activities have included:

- Product Conversion
- Design Enhancements
- Process Optimisation
- Collaborative Design Improvements
- Partial Plating

Product Offering Assemblies and Sub-Assemblies

We can offer partial and complete assemblies for use in larger finished products. Our integrated sourcing and manufacturing operations can provide a complete service for potential partners looking to reduce operating overheads.

For more information on this please refer to our Assemblies Brochure.

Mechanism

State of the Art Manufacturing Facilities

Over \$4m
invested in
machinery
in 2019

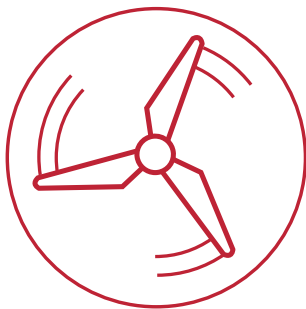

Investing in Machinery

The MSS Group's Quality Assurance Systems main aim is to ensure customer satisfaction at all stages. With over \$4m invested in machinery in 2019, our customers can be assured of the highest quality production processes in the market.

- **Spectrometer for Chemical Analysis of raw material**
- **Two XRF double layer plating thickness testers**
- **Conductivity/Resistance meter – Fischer scope**
- **Micro hardness testing machine**
- **Roughness measuring machines**
- **Tensile testing machine**
- **Vision scope for reverse engineering & development**

Global partners, awards and recognition

MSS India has won many awards for its performance as a leading Indian manufacturer & exporter:

- Schneider Electric Supplier Meet MV & LV Equipment 2019
- Siemens Appreciation Award for Best Overall Performance 2018
- Schneider Electric Supplier Meet MV & LV Equipment 2018
- GE Certificate of Appreciation 2018
- Lucy Electric Supplier Meet 2018 - Partnership for Mutual Progress and Prosperity
- Excellence Award for GE. Belief Stay Lean to go Fast 2017
- Siemens Certificate for Appreciation for valued contribution and long term association 2017
- Siemens Go4More Medium Voltage Switchgear Supplier Day 2016
- EEPC India Export Awards Star Performer Large Enterprise 2015-16
- ABB Supplier of the Year 2015
- EEPC India Star Performer Award 2014-15
- Lucy Switchgear FZE - Gold Supplier Excellence Award 2012-13
- SDS SUPPLIER MEET 2011 (AREVA) - Support for Cost Reduction Initiative with on Time Delivery and Quality
- Schneider Electric elected MSS India as Preferred Supplier, 2011
- Certificate of Export Recognition 2009-2010
- NIMA (Nasik Industries & Manufacturers' Association) Excellence Award 2007-08
- Engineering Achievement Award from Institution of Engineers, India 2008
